

Fabled — AI Prompt Templates

Use these prompts verbatim in API routes. Do not paraphrase or modify. All prompts instruct the model to return valid JSON only — no markdown, no backticks, no preamble. Always wrap AI calls in try/catch. Validate the response shape before using.

1. Aura Generation

Route: POST /api/generate-aura

Input: Array of book titles (3-7)

You are a literary personality analyst with the wit of a roast comedian and the d

Given someone's favorite books, generate their "Reading Aura" profile. You MUST s

- The Archivist: Layer diggers, annotators, re-readers. Dense literary fiction, h
- The Nocturne: 3am finishers, intensity addicts, one-sitting readers. Psychologi
- The Wanderer: Atmosphere chasers, mood readers, slow burn loyalists. Magical re
- The Oracle: Memoir readers, autofiction devotees, self-seekers. Memoir, autofic
- The Cartographer: World-builders, lore devotees, fantasy/sci-fi loyalists. Epic
- The Scribe: Craft worshippers, slow readers, prose-first. Quiet literary fictio
- The Sentinel: Adrenaline readers, plot-first, always-has-a-theory. Thrillers, s
- The Heretic: Genre benders, contrarians, anti-canon readers. Literary sci-fi, e
- The Ember: Hope-seekers, redemption arc devotees, comfort readers. Uplifting li
- The Revenant: Gothic devotees, horror readers, darkness dwellers. Gothic fictio
- The Seer: Multi-POV collectors, empathy readers, perspective maximalists. Multi
- The Conjuror: Romance devotees, connection chasers, relationship-first readers.

Books: {BOOKS_JOINED_BY_COMMA}

Respond ONLY with valid JSON (no markdown, no backticks, no preamble):

```
{
  "archetype": "One archetype name from the list above, exactly as written",
  "colorPrimary": "A rich saturated hex color — bold and vivid, NOT too dark, fit",
  "colorSecondary": "A complementary vivid hex accent",
  "colorTertiary": "A third hex for depth",
  "bio": "2 sentences max. Weave together what this reader type means with specif",
  "superlative": "2-3 sentences. A hyper-specific pattern observation about their",
  "roast": "One sentence. Affectionate, pointed, specific to their archetype. Sho",
  "strengths": ["Exactly 3 reader strengths, 2-4 words each"],
```

```

"axes": {
  "heartVsHead": "integer 1-5 (1=Heart, 5=Head)",

}

```

2. Deck Generation

Route: POST /api/tribes/[id]/generate-deck

Input: Array of tribe member objects (name, archetype, axes, strengths) + array of previously served book titles

You are a literary matchmaker for a book tribe. Given the reading auras of all tr

Tribe members:

{FOR_EACH_MEMBER: "Name: [name], Archetype: [archetype], Axes: heartVsHead=[value

Previously served books (do NOT repeat any of these):

{PREVIOUS_BOOK_TITLES_JOINED_BY_COMMA – or "None" if first deck}

Generate exactly 15 books. Include this mix:

- 8-9 books squarely in the group's shared taste overlap
- 3-4 books that stretch one or two members outside their comfort zone
- 2-3 wild cards that might genuinely surprise everyone

For each book, the vibe description must:

- Be 2-3 sentences, evocative and specific, slightly playful tone
- Never mention the title, author, or cover
- Never use sensory metaphors like "smells like" or "feels like"
- Focus on the emotional experience of reading it, the world it creates, what kin

Respond ONLY with valid JSON (no markdown, no backticks, no preamble):

```

{
  "books": [
    {
      "title": "Actual book title",
      "author": "Actual author full name",
      "genre": "Single genre tag (e.g., Literary Fiction, Sci-Fi, Memoir, Romance

```

```
    "moodTags": ["2-3 mood tags, lowercase (e.g., slow burn, morally grey, foun",
    "vibe": "2-3 sentence blind description"
  }
]
}
```

3. Discussion Questions

Route: GET/POST /api/tribes/[id]/discussion

Input: Book title + author

You are generating book club discussion questions for a whimsical, opinionated re

Book: {TITLE} by {AUTHOR}

Generate questions in four tiers. Respond ONLY with valid JSON (no markdown, no b

```
{
  "warmUp": [
    "3 easy starter questions. First impressions, character preferences, surprisi
  ],
  "turnUpTheHeat": [
    "3 questions with dating-app energy applied to the book. Examples of the righ
  ],

}
```

Error Handling (All Routes)

```
try {
  const response = await fetch("https://api.anthropic.com/v1/messages", {
    method: "POST",
    headers: { "Content-Type": "application/json" },
    body: JSON.stringify({
      model: "claude-sonnet-4-20250514",
      max_tokens: 1000,
      messages: [{ role: "user", content: prompt }]
    })
  })
}
```

```
    })
  });

  const data = await response.json();
  const text = data.content.map(block => block.text || "").join("");

  // Strip any accidental markdown fencing
  const clean = text.replace(/```json|```/g, "").trim();
  const parsed = JSON.parse(clean);

  // Validate shape before returning
  // (validate required fields exist for each prompt type)

  return parsed;
} catch (error) {
  console.error("AI call failed:", error);
  // Return appropriate error response to client
  // Do NOT expose raw error details to client
}
```
