

Fabled — Design System

All values here are exact. Do not approximate. Do not substitute. If a token is not listed here, ask before inventing one.

Vibe

Tarot card meets fantasy library meets book club. Dark, warm, intimate. Mystical but not precious. Whimsical but not childish. Think: a tarot reading in the back of a cool bookstore at midnight. Not Halloween. Not children's fantasy. Not Harry Potter.

Every archetype has its own color palette (see `archetypes.json`). These colors appear in card backgrounds, borders, creature illustrations, and aura-specific UI treatments. The global palette below is the base layer that archetype colors sit on top of.

Colors

Global Palette

Background:	#111010
Primary text:	#F5F0E8
Secondary text:	#B8B2A8
Tertiary text:	#C8C2B8
Muted 1:	#9B958A
Muted 2:	#7A756D
Muted 3:	#6B655C
Muted 4:	#5A564F
Muted 5:	#4A463F
Muted 6:	#3D3A35
Border dark:	#2A2722
Primary CTA gradient:	<code>linear-gradient(135deg, #C4956A 0%, #8B6E4E 100%)</code>
Success / Yes:	#6BCB77
Error / Nah:	#E85D5D

Archetype Color Usage

Each user has three aura colors: `colorPrimary`, `colorSecondary`, `colorTertiary`.

Generated by the AI during aura creation. Use them as follows:

- **Card background:** `colorPrimary` at 6% opacity over `#111010`
- **Card border:** `colorPrimary` at 15% opacity
- **Accent elements:** `colorSecondary`
- **Creature illustration fill:** All three colors as SVG fill props
- **Glow effects:** `colorPrimary` at 25% opacity, blur-radius 20px
- **Progress indicators:** `colorPrimary` at 80% opacity

Never use archetype colors at full opacity as backgrounds. They are always transparent overlays.

Typography

Font Stack

```
--font-display: 'Playfair Display', Georgia, serif;
--font-body: 'DM Sans', system-ui, sans-serif;
--font-label: 'JetBrains Mono', 'Courier New', monospace;
```

Import from Google Fonts:

```
Playfair Display: weights 400, 600, 700
DM Sans: weights 300, 400, 500, 600
JetBrains Mono: weights 400, 500
```

Type Scale

Token	Font	Size	Weight	Usage
display-xl	Playfair Display	36px / 2.25rem	700	Archetype name on aura card
display-lg	Playfair Display	28px / 1.75rem	600	Screen titles
display-md	Playfair Display	22px / 1.375rem	600	Card headings

body-lg	DM Sans	17px / 1.0625rem	400	Primary body text
body-md	DM Sans	15px / 0.9375rem	400	Secondary body text
body-sm	DM Sans	13px / 0.8125rem	300	Captions, supporting
label	JetBrains Mono	11px / 0.6875rem	500	Tags, status labels, uppercase

Label text is always: `text-transform: uppercase; letter-spacing: 0.08em;`

Spacing

Base unit: 4px.

```

xs:    4px
sm:    8px
md:    16px
lg:    24px
xl:    32px
2xl:   48px
3xl:   64px

```

Border Radius

```

card-lg:    24px    (aura cards, full-bleed cards)
card-md:    18px    (tribe cards, deck cards)
button:     12px    (all buttons)
pill:       20px    (tags, status pills)
input:      10px    (form inputs)
modal:      20px    (bottom sheets, modals)
avatar:     50%     (circular member avatars)

```

Components

Primary Button (CTA)

```
background: linear-gradient(135deg, #C4956A 0%, #8B6E4E 100%);
border-radius: 12px;
padding: 14px 24px;
font: DM Sans 500 16px;
color: #F5F0E8;
border: none;
min-height: 52px;
width: 100%; /* full width on mobile by default */
```

Hover: brightness(1.08), transform scale(1.01) Active: brightness(0.95), transform scale(0.99) Disabled: opacity 0.4, cursor not-allowed

Ghost Button (Secondary)

```
background: transparent;
border: 1px solid rgba(196, 149, 106, 0.35);
border-radius: 12px;
padding: 13px 24px;
font: DM Sans 500 16px;
color: #C4956A;
min-height: 52px;
```

Hover: background rgba(196, 149, 106, 0.08)

Cards

```
/* Base card */
background: rgba([colorPrimary], 0.06);
border: 1px solid rgba([colorPrimary], 0.15);
border-radius: 24px;
padding: 20px;

/* Card without aura color (neutral) */
background: rgba(255, 255, 255, 0.03);
border: 1px solid rgba(255, 255, 255, 0.08);
```

Tags / Mood Pills

```
background: rgba([colorSecondary], 0.12);
border: 1px solid rgba([colorSecondary], 0.25);
border-radius: 20px;
```

```
padding: 4px 12px;
font: JetBrains Mono 500 11px;
text-transform: uppercase;
letter-spacing: 0.08em;
color: [colorSecondary];
```

Genre tags use the same treatment in `colorPrimary`.

Bottom Sheet / Modal

```
background: #1A1815;
border-radius: 20px 20px 0 0;
border-top: 1px solid rgba(255, 255, 255, 0.08);
padding: 24px 20px 40px; /* extra bottom for safe area */

/* Backdrop */
background: rgba(0, 0, 0, 0.75);
backdrop-filter: blur(4px);
```

Input Fields

```
background: rgba(255, 255, 255, 0.05);
border: 1px solid rgba(255, 255, 255, 0.12);
border-radius: 10px;
padding: 14px 16px;
font: DM Sans 400 16px;
color: #F5F0E8;
min-height: 52px;
```

Focus: `border-color rgba(196, 149, 106, 0.6)`, `outline none`

Bottom Navigation

```
position: fixed;
bottom: 0;
width: 100%;
background: linear-gradient(to top, #111010 60%, transparent);
padding: 12px 0 32px; /* 32px for safe area */
```

Three tabs: Home, Tribes, My Aura. Active tab uses `colorPrimary` (or gold if no aura yet).

Swipe Cards

```
width: calc(100vw - 48px);
max-width: 380px;
min-height: 420px;
border-radius: 24px;
background: rgba([colorPrimary], 0.08);
border: 1px solid rgba([colorPrimary], 0.18);
padding: 24px;
position: absolute; /* stacked */
```

YES label: #6BCB77 , appears on right drag NAH label: #E85D5D , appears on left drag Labels fade in proportional to drag distance (opacity 0 at 0px, opacity 1 at 80px drag)

Progress Dots

```
width: 8px;
height: 8px;
border-radius: 50%;
background: rgba(255,255,255,0.15); /* default */
/* Yes: #6BCB77 */
/* Nah: #E85D5D */
```

Axes / Reading Dimension Bars

Five axes, each rendered as a horizontal bar with a glowing dot.

```
/* Track */
height: 4px;
background: rgba(255,255,255,0.08);
border-radius: 2px;
width: 100%;

/* Fill (left of dot) */
background: linear-gradient(to right, [colorPrimary] 0%, [colorSecondary] 100%);

/* Dot */
width: 14px;
height: 14px;
border-radius: 50%;
background: [colorPrimary];
box-shadow: 0 0 10px 3px rgba([colorPrimary], 0.5);
border: 2px solid #111010;
```

Labels at each end: JetBrains Mono 10px uppercase . Left label left-aligned, right label right-aligned. Info “i” button opens a modal with the axis description from the design spec.

Animations

All animations use CSS transitions or keyframes. No animation libraries.

```
/* Card reveal (aura card, book reveal) */
@keyframes cardReveal {
  from { transform: scale(0.92); filter: blur(8px); opacity: 0; }
  to   { transform: scale(1);   filter: blur(0);   opacity: 1; }
}
animation: cardReveal 0.4s cubic-bezier(0.34, 1.56, 0.64, 1) forwards;

/* Fade in up (sequential elements) */
@keyframes fadeInUp {
  from { transform: translateY(16px); opacity: 0; }
  to   { transform: translateY(0);   opacity: 1; }
}
/* Stagger with animation-delay: 0.08s per element */

/* Pop in (modals, notifications) */
@keyframes popIn {
  from { transform: scale(0.94) translateY(8px); opacity: 0; }
  to   { transform: scale(1)   translateY(0);   opacity: 1; }
}
animation: popIn 0.25s cubic-bezier(0.34, 1.56, 0.64, 1) forwards;

/* Float (loading icons) */
@keyframes float {
  0%, 100% { transform: translateY(0); }
  50%      { transform: translateY(-8px); }
}
animation: float 2.4s ease-in-out infinite;

/* Pulse glow (ambient orbs) */
@keyframes pulseGlow {
  0%, 100% { opacity: 0.4; transform: scale(1); }
  50%      { opacity: 0.7; transform: scale(1.08); }
}
animation: pulseGlow 3s ease-in-out infinite;

/* Shake (hot take cards) */
@keyframes shake {
```

```
0%, 100% { transform: rotate(0deg); }
20%      { transform: rotate(-2deg); }
40%      { transform: rotate(2deg); }
60%      { transform: rotate(-1.5deg); }
80%      { transform: rotate(1.5deg); }
}
animation: shake 0.5s ease-in-out;
```

Stagger Pattern

When revealing lists (book reveal, tribe member lists):

- First element: `animation-delay: 0s`
 - Each subsequent: add `0.08s`
 - Max stagger: 0.6s (cap at 8 elements for timing)
-

SVG Creature Illustrations

Each archetype has a unique SVG creature. Rules:

- Style: whimsical, hand-drawn feeling, slightly loose linework
- Colors: `colorPrimary` for primary fills, `colorSecondary` for accents, `colorTertiary` for depth
- Background: transparent
- Stroke: none (filled shapes only, or stroke in `colorPrimary` at 20% opacity)
- Sizes:
 - Hero: 220px x 220px (aura card)
 - Avatar: 56px x 56px (tribe member list, discussion bar)
 - Emoji fallback: provide a single emoji per archetype for contexts where SVG isn't practical

Emoji Fallbacks

archivist:
nocturne:
wanderer:

oracle: 
cartographer: 
scribe: 
sentinel: 
heretic: 
ember: 
revenant: 
seer: 
conjurer: 

Responsive Breakpoints

Mobile-first. Design at 390px, test at 375px.

Default (mobile): 390px
Tablet: 768px (minor layout adjustments, not a different design)
Desktop: 1024px (post-MVP, not in scope for v1)

Max content width on mobile: `calc(100vw - 48px)` with `margin: 0 auto`.

Loading States

Aura Generation Loading

Cycling messages, one at a time, fade in/out every 2.2s:

1. "Consulting the book star gods..."
2. "Charting your reading constellation..."
3. "Finding your archetype..."
4. "Mapping your literary dimensions..."
5. "Almost there..."

Accompanied by a floating/pulsing orb animation in the brand gold (#C4956A).

Skeleton Loaders

Use for: tribe cards, book cards, member lists

```
background: linear-gradient(90deg,  
  rgba(255,255,255,0.04) 0%,  
  rgba(255,255,255,0.08) 50%,  
  rgba(255,255,255,0.04) 100%  
);  
background-size: 200% 100%;  
animation: shimmer 1.5s infinite;  
  
@keyframes shimmer {  
  from { background-position: 200% 0; }  
  to   { background-position: -200% 0; }  
}
```

Mobile-Specific Rules

- Minimum touch target: 44px x 44px
- Safe area bottom padding: 32px (account for home indicator)
- No hover-only interactions. Every hover state must also work on tap.
- Swipe gestures use pointer events (works for both touch and mouse)
- Font size minimum: 13px (never smaller on mobile)
- Avoid fixed-height containers that could cause content clipping on small screens
